Values

Strong communication and collaboration are as important to me as technical execution. I have worked closely with cross-functional teams such as Product Managers, Designers, Data Scientists, and UX Researchers to ensure that we are aligned on project goals and delivering high-quality products at scale.

You can read more about what strong communication means to me in my blog post [here](#).

Professional Experiences

Founder, San Francisco, USA

Oct 2025 – Present

- Built AI-powered SaaS products end-to-end from ideation to production and early users
- **Ideate ([ideate.build](#))**: Describe an app idea and get a working prototype in seconds
 - Full-stack AI agent generating production-ready web apps; Stripe billing; containerized cloud execution
- **Appily ([appily.dev](#))**: Prompt-to-App-Store platform, no coding required
 - End-to-end system from prompt to deployed mobile app; scalable SaaS architecture and agent workflows
- Teaching vibe coding and AI agents

Meta AI/MSL - Senior Fullstack AI Infra Engineer · Tech Lead, San Francisco

2024 – 2025

- The Core Experience team is the central MetaAI team working on all AI experiences at Meta, across all FoA (Family of Apps): Messenger, Instagram, Facebook, WhatsApp, and the new Meta AI app
- Tech Lead · MetaAI Core Experience Team
 - Search integration and feedback loop
 - Rich Responses workstream - Created a native markdown parser to improve bot responses readability
 - Code Formatting (syntax highlighting) workstream and wrote the Parser
 - Reasoning capabilities & AI Long Term Memory

Uber · iOS Senior Software Engineer, 6.5+ years · San Francisco, USA

2017 – 2024

- iOS Tech Lead · UberEats Storefront Team · Led ~20 engineers
 - Building a new iOS Storefront experience enabling new verticals (restaurants, groceries, pharmacies, etc)
 - Storefront is a Core Platform & Product team, about 10 teams are working in our codebase and implementing new features (checkout, pickup, groceries, promo, ads, etc)
 - UI designed (Figma), architected, and led the implementation of the past & active orders experience
 - Led the architecture and mobile implementation of the Checkout to Order Tracking experience
 - Founding team member of Storefront, interviewed and mentored most of the engineers
 - Founding member of the Uber Design System. (iOS, Android and Web)
 - Developed an internal iOS SDK to build native applications from the backend: [Screenflow](#). (Similar to React Native)
- Extracurricular**
- Uber Hackathon Winner 2019 & 2021. ([demo video](#))
 - Created the Uber Mentoring Program with [Superposition](#). (Around 100 mentors, 100 mentees)
